

# Growing Cube

## Growing Cube

From weaning up to 3 years  
High-quality proteins  
For optimal growth

# Growing Cube

*Growing Cube is a pellet specially developed for young horses from 1 up to 3 years old. This pellet ensures the best possible hardening of bones and supports the development of tendons and joints, which forms the basis for leg quality later in life. By ad*

This flaked mix contains top quality ingredients:

#### OS complex

A specially-developed complex with an optimal ratio of copper, zinc and manganese promoting the best possible development of joints, cartilage, tendons and bones.

#### Organic selenium

Organic selenium is part of the antioxidant family and is in a form that is easily assimilated by the body.

## HOW TO USE

To be fed at a rate of 0.5 to 1 kg per 100 kg of body weight per day. To be adjusted depending on the breed and the quality of the roughage. The feed must always be supplemented with quality, free-choice roughage. The foal must always have access to clean
